

Rusty French

This group is no longer active

Working at a pre-intermediate level. Rusty French is for those who understand some French, and are able to speak some French but wish to build their vocabulary and gain more fluency. In this class we will develop the language at the pace of the majority of the class, but we will use more advanced materials, but still pre-intermediate level, and perhaps read short stories in French as well as do role plays etc.

Similarly, the aim will be to gain fluency and confidence.

The last thing I want is for anyone to feel stressed or embarrassed about speaking French, this is not an exam class! We are learning French for pleasure, so the classes will be relaxed and I hope you will have fun!
