Tutorials

If you click on the links below, you can use a set of video tutorials to help you use the world wide web and your computer. I have had to reduce their resolution in order to keep their size manageable.

You can use the link at the top left of the video to maximise it's view, use the <ESCAPE> key to exit — likely at the top left of your keyboard.

Adding more complex content to your pages

Moving text in a page block and playing with media labels.

Making simple changes to my pages

Click here to show me how

This tutorial is to describe how to make simple changes to my web page content.

Adding media to your web pages

Click here to show me how

Here I show how to upload and add videos to your page content. Note that video files can get very large, so please export

them at the lowest acceptable resolution and keep them short.

Change text size when you view your web pages

On a Windows machine you can also use the Magnifier. Press the **Windows** logo key⊞ + Plus sign (+) on the keyboard to turn **Magnifier** on. Press **Windows** logo key + Esc to turn it off. To turn **Magnifier** on and off using touch or a mouse, select Start > Settings > Ease of Access > **Magnifier** , and switch on the toggle under Turn on **Magnifier**. Also **Ctrl+** zooms in; **Ctrl-** zooms out and **Ctrl0** (zero) returns to the original size. Hold down the Ctrl button and press +, – or 0 (zero).
